    <xsd:complexType name="OrganisationParty_Type">

      <xsd:annotation>

        <xsd:documentation xml:lang="en">

This container brings together all data about an organisation as a party. Name and address are required components and each can

be present more than once to enable as complete a description as possible. Whenever possible one or more identifiers (TIN

etc) should be added as well as a residence country code. Additional data that describes and identifies the party can be

given . The code for the legal type according to the OECD codelist must be added. The structures of

all of the subelements are defined elsewhere in this schema.</xsd:documentation>
